

ABOUT US

Founder, JoAnne Holt, is a CPA and Certified Divorce Financial Analyst who saw a need for families in transition due to divorce to have an alternative to the making rash long-term commitments during the pendency of a divorce. Too many find themselves wishing they had not signed that one-year lease or purchased a house before they knew what their long-term needs and financial resources would be.

This site is intended to help families to find someplace nice and furnished, with all the utilities and cable provided in one price so the move is less stressful.

This website will be marketed to family law attorneys, mental health professionals and court personnel as well as financial experts who work with these families. Everyone consulted on the idea love it and think it is a great concept.

Rates for advertising your rental unit or your client's unit on the website start as low as \$15 a month. You have nothing to lose!
